

# SOUTHEASTERN FOOD & FARM VETERINARY SUMMIT

Exhibitor/Sponsor Prospectus

March 6-8, 2026

Calloway Resort & Gardens - Pine Mountain, GA

## History of the Southeastern Food and Farm Veterinary Summit

The Alabama and Georgia Veterinary Medical Associations have collaborated to deliver the foremost Food and Farm Animal continuing education experience.

With a rich history of featuring captivating speakers and delivering the latest insights in food animal veterinary medicine, both associations recognized the potential to pool their expertise for a more comprehensive educational offering. Thus, they proudly present the Southeastern Food and Farm Veterinary Summit (SEVS), a conference meticulously crafted to draw veterinarians from across the southeastern region.

This summit will encompass a wide spectrum of program options, covering topics ranging from bovine and commercial poultry to small ruminants and honey bees. It's an inclusive event that caters to all professionals working in the mixed animal or large animal veterinary fields.

## Conference Highlights

### **Friday - Night Meet and Greet - 5:15pm - 6:30pm**

We invite you to an enjoyable evening of food, networking, and corn hole tournament on Friday night. This event will provide exhibitors with the opportunity to network with attendees in a welcoming and relaxed environment. Heavy Hors d'oeuvres and cash bar will be available. Additionally, CVM students are encouraged to attend, offering them a valuable chance to connect with seasoned veterinarians in the field of Food and Farm Animal Veterinary Medicine. Sponsorship opportunities are available for those interested in supporting and participating in this fun networking experience.

### **Saturday - Birds of Prey Show - 6:00pm - 7:30pm**

Join us at the Discovery Center for some light bites and an exciting and inspiring learning experience. Presented with the permission of the U.S. Fish and Wildlife Service and the Georgia Department of Natural Resources, Callaway Resort & Gardens' Birds of Prey program is a must-see when you come for a visit.

Since its debut in 2000, the program has helped educate well over a million visitors about man's impact on raptors and other forms of wildlife. During suitable weather, these magnificent creatures – which cannot be released into the wild, due either to injury or having developed an unnatural association with humans known as "imprinting" – demonstrate their strength, speed, and natural instincts in daily flighted programs.

Several birds appear at each program, swooping overhead and giving guests an up-close look "on the glove," while our raptor experts explain how man's actions affect their well-being. This will be a great opportunity to network with our attendees in a wonderful setting!
